DETAILED ACTION

APPLICANTS' ARGUMENTS

Applicants' arguments, filed 14 September 2004, have been fully considered but they are not deemed to be persuasive. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn. The following rejections and/or objections are either reiterated or newly applied. They constitute the complete set presently being applied to the instant application.

CLAIMS UNDER EXAMINATION

Claims herein under examination are claims 40-43 and 51. Claims 1-39 and 44-50 have been cancelled.

Claims Rejected Under 35 U.S.C. § 112 2nd Paragraph

The following is a quotation of the second paragraph of 35 U.S.C. § 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 40-43 and 51 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which Applicants regards as the invention.

VAGUE AND INDEFINITE

Claim 40 and all claims dependent therefrom recite the limitation "fingerprints associated with application of a manipulation to cell lines in a database" which is considered vague and indefinite. Applicants submit the following regarding the above limitation:

"...the language makes clear that the database contains fingerprints obtained from cell lines following manipulations, and that the database is constructed so that each fingerprint is associated with information including cell lines and manipulations from which it was obtained."

Art Unit: 1631

While it is acknowledged the instant claim language indicates database does contain fingerprints obtained from cell lines following manipulation, what remains unclear is the underlying association (i.e. associated with) that the fingerprint has with the “application of a manipulation to cell lines”. Thus, Applicants can resolve this issue by particularly pointing out what defines and/or formulates the association that is between the “fingerprints” and the “application of a manipulation to cell lines in a database”. Clarification of the metes and bounds, via clearer claim language, is requested.

ACTION IS FINAL, AS NECESSITATED BY AMENDMENT

Applicants’ amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See M.P.E.P. § 706.07(a). Applicants are reminded of the extension of time policy as set forth in 37 C.F.R. § 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 C.F.R. § 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
